

Hi there,

Are your students applying for any weird scholarships this year?

My name is Pyper Barnes. I am the creator of a website called [WeirdScholarships.net](https://weirdscholarships.net). I started the site a couple years ago with the intention of making it easier for students to find scholarships they would have never heard of beforehand.

My website features thousands of small and unique scholarship opportunities. Most students forget about the smaller awards, but in many cases, these are the best opportunities for students. My site is dedicated to helping students find less competitive awards tailored to their personality, interests, and career goals.

I would greatly appreciate it if you could share my website with your community on your resources page or social media.

For reference, the website is completely free to use and students are not required to provide any personal information.

Thank you!

Best,  
Pyper Barnes
